## Individual Work

We will sit down with your children, as they are naturally interested in the individual work. We will engage them and give them the assistance they need to develop confidence in their work. We will also encourage, and engage students to finish the work even if they are not naturally inclined (would rather play). The work will gauge their learning, and additional practice will be added if necessary. Their learning portfolio will be updated every Friday and placed in their Friday folder, to be taken home.
